Responsive Design and AEM

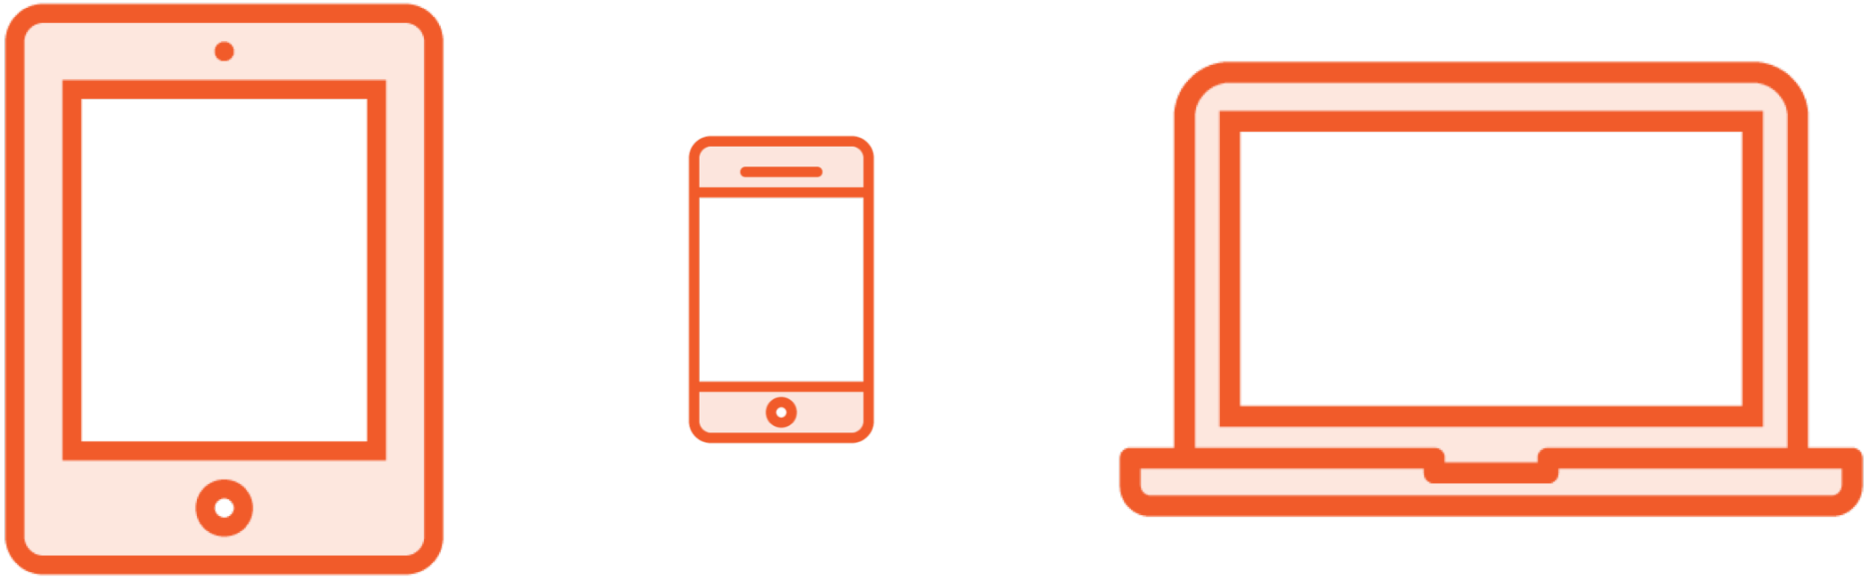
Overview

Responsive design

Responsive paragraph system

Layout mode and emulators

Responsive Design



Goals of Responsive Design

Easy reading and access to content

Clear and easy navigation

Minimum resizing, panning and scrolling

Design for wide range of devices

Tenets of Responsive Design

Single design
for all devices

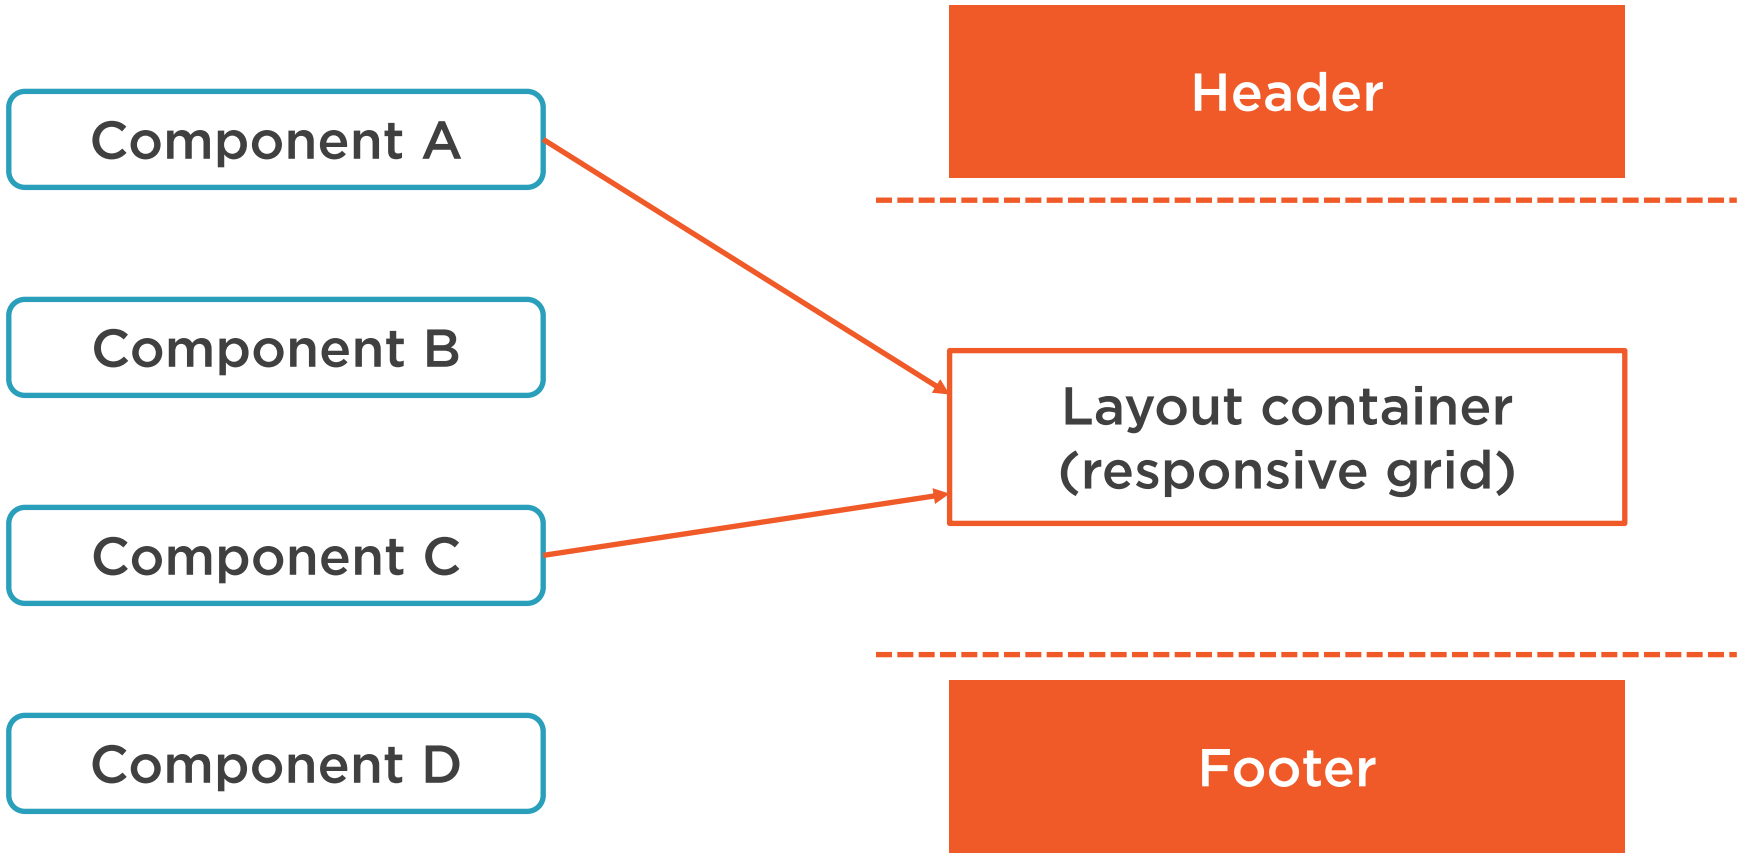
Single URL for
all devices

Single code
base for website

Less expensive
to maintain

The Responsive Paragraph System in AEM

Paper Analogy



AEM's Paragraph Systems

parsys	iparsys	responsivegrid
(paragraph system)	(inherited paragraph system)	(layout container)
